

**INFORMATION TO BE COMMUNICATED TO THE PUBLIC CONCERNING OPERATIONAL SAFETY MEASURES
AND BEHAVIOUR IN THE EVENT OF AN ACCIDENT**

PART 1

For all establishments covered by Law 59/2016:

1. Business owner name and site address:

1.1. **SC OSCAR DOWNSTREAM SRL** - Magurele City, ATOMISTILOR Street, No. 14, Ilfov County,
Phone: 0213182624; Fax: 0213182625; e-mail: office@oscars.ro; www.oscars.ro

1.2. **Fundulea Fuel Depot**, Fundulea City, 47A Muncii Street, Calarasi County, latitude: 44°45'45" ;
longitude: 26°49'50", 0730013738/vasile.goia@oscars.ro, 0737003205/
emilian.tudorache@oscars.ro

2. Confirmation that the site is subject to the regulations and/or administrative provisions implementing Law 59/2016 and that the Notification referred to in Article 7 and in the Major Accident Prevention Policy set out in Article 8 para. (1) or in the Security Report referred to in Article 10 para. (1) have been submitted to the competent authority.

Following the notice received from the Risk Office of the Environmental Protection Agency, S.C. Oscar Downstream SRL - the FUNDULEA working point is a **lower-level site** due to the presence on the site of hazardous substances in quantities higher than the relevant ones, as provided by Law no.59/2016.

Pursuant to the legal provisions, the following documents have been prepared/updated and submitted with the Risk Office of the Calarasi Environmental Protection Agency and ISUJ Calarasi:

Notification of activity registered with the SRAPM under no. **6579/28.05.2021**;

Policy for the Prevention of Major Accidents (Revision 1) Involving Hazardous Substances, no. **309-Sv/24.10.2023**, registered with the SRAPM under the no. **11544/24.10.2023**

3. Explanation in simple terms of the activity or activities carried out at the establishment

According to the Confirmation of Company Details, - SC OSCAR DOWNSTREAM SRL - Fundulea "Fuel depot" working point in Fundulea City, 47A Muncii Street, Calarasi County, performs the following activities:

- Main activity
4671: Wholesale of solid, liquid and gaseous fuels and related products
- Other related activities
5210: Warehousing and storage
5224: Handling
4941; Freight transport by road.

The operator is classified as a SEVESO objective because:

- they own a fuel depot, NACE Code CL007/SPIRS, where hazardous substances are stored and handled within the main activity, i.e. **Wholesale of solid, liquid and gaseous fuels and related products and related activities.**

4. The common names or, in the case of hazardous substances covered by Part 1 of Law 59/2016, the generic names or general hazard category of the substances and mixtures involved in the establishment which could lead to a major accident, indicating their main dangerous characteristics.

Item No.	Substances used	Aggregation status	Hazard statement/Hazard category
	Diesel	liquid	-H226: Flammable liquid and vapors -H304: May be fatal if swallowed and enters airways -H351: Suspected of causing cancer -H332: Harmful if inhaled -H315: Causes skin irritation -H373: May cause damage to organs through prolonged or repeated exposure -H411: Toxic to aquatic life with long lasting effects
2	Gasoline	liquid	-H224: Highly flammable liquid and vapor; -H304: May be fatal if swallowed and enters airways -H315: Causes skin irritation -H336: May cause drowsiness or dizziness -H340: May cause genetic defects -H350: May cause cancer -H361f: May damage fertility. May be harmful to the unborn child. -H411 Toxic to aquatic life with long-lasting effects
3	Additives	liquid	-H332: Harmful if inhaled -H319: Causes severe eye irritation -H351: Suspected of causing cancer -H336: May cause drowsiness or dizziness -H304: May be fatal if swallowed and enters airways -H411: Toxic to aquatic life with long lasting effects

5. General information on how to warn the public concerned, if necessary; appropriate information on what to do in the event of a major accident or where this information may be accessed electronically.

In the event of a major accident (e.g. fire, explosion, toxic spillage, etc.) The Fuel Depot is equipped for public warning with automatic electric sirens. These devices are AUTOMATICALLY activated from within the site, or are activated by the personnel appointed/designated to perform certain drills and checks for such situations.

In this regard, MAKE SURE:

The warehouse is equipped with acoustic signaling to warn of an accident.

Communication, including the public information of the inhabitants with regards the areas potentially affected is also performed by telephone by the company's personnel appointed for this task

- ❖ The warehouse is equipped with acoustic signaling to warn of an accident.
- ❖ Communication, including the public information of the inhabitants with regards the areas potentially affected is also performed by telephone by the company's personnel appointed for this task.

- ❖ Any information and messages sent via the RO-ALERT system or via the authorities Warning messages transmitted by telephone, radio.

In addition, the operator must notify the competent authorities responsible for the application of Law 59/2016 (the County Inspectorate for Emergency Situations, the County Environmental Protection Agency, the County Commissioner of the Environmental Police, the public institutions responsible for the external emergency plan and the neighboring economic operators).

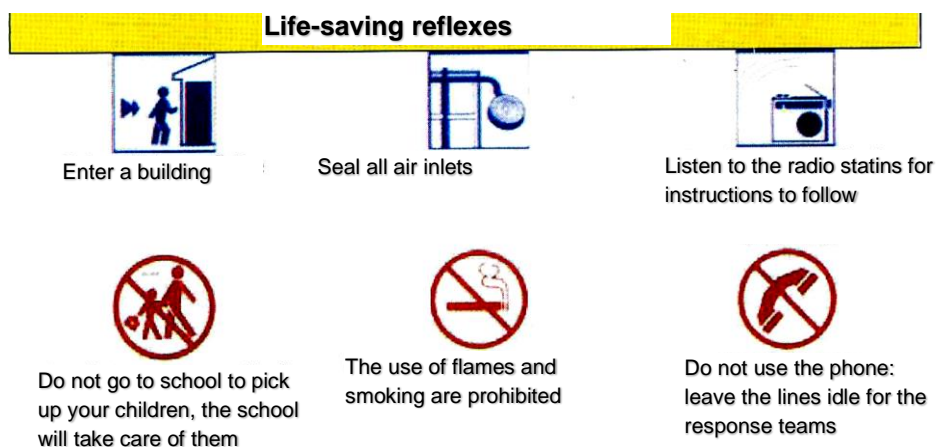

To avoid injury/poisoning, persons located in the risk area must observe the following guidelines:

a) in case of major releases (toxic dispersions):

- ✓ Move away from the accident site;
- ✓ Do not stand outdoors in order to avoid inhalation of toxic substance;
- ✓ Immediately take cover inside a building;
- ✓ Immediately close the windows and doors;
- ✓ If necessary, help the children, people with disabilities and the elderly;
- ✓ Disconnect air conditioners or fans in your area or car;
- ✓ Cover your nose and mouth with a wet handkerchief;
- ✓ In case of subsequently occurring health issues, seek medical help

b) in case of fire or explosion:

- ✓ Move away from the accident site;
- ✓ Do not stand in the direction of the air currents carrying combustion products. If necessary, protect your airways by covering your nose and mouth with a wet handkerchief and immediately move away from the area;
- ✓ Leave the building you are in if it is affected by the incident. If you can stay inside the building, disconnect air conditioners or fans in your area;
- ✓ If necessary, help the children, people with disabilities and the elderly.

6. The date of the last site visit pursuant to Article 20(5) of Law 59/2016 or the indication of the location where this information may be accessed electronically; information on where more detailed information on the inspection and the inspection plan may be obtained upon request, subject to the provisions of Article 22 of Law 59/2016 (confidentiality requirements established by the law).

Specify the date of the last visit to the site by the competent authorities, the authorities involved, the type of control and the location where additional information may be obtained.

Example

Item no.	Date of the visit to the site by the competent authorities	Participating authorities	Inspection subject
1	29.03.2023	Calarasi County Inspectorate for Emergency Situations; Calarasi County Commissioner of the Environmental Police; Calarasi Environmental Protection Agency.	Site inspection to verify the implementation of all measurements transmitted at the previous control in 12.04.2022. Verification of the Security Management System adopted by OSCAR Downstream SRL, and actions planned for emergency situations. Technological systems check.
